ABOUT US

Welcome to Sucane, your premier destination for eco-friendly tableware, food packaging & take away solutions crafted from sugarcane bagasse in India. Our commitment to sustainability, innovation, and quality craftsmanship sets us apart in the industry.

As manufacturers of sugarcane bagasse products, we prioritize environmental consciousness throughout our production process. Sugarcane bagasse, a renewable resource, serves as an excellent alternative to traditional plastic or paper-based products, reducing waste and promoting a circular economy.

Our range of bagasse products includes plates, bowls, trays, containers and Clamshells, all meticulously designed to meet your culinary needs while keeping our mother-earth clean & healthier.

What distinguishes Sucane is our unwavering commitment to quality. Each product undergoes rigorous testing to ensure durability, heat resistance, and compliance with food safety standards.

At Sucane, we believe in making a positive impact on the planet without compromising on style or functionality. Join us in our mission to embrace sustainability and elevate your dining & food packaging experience with our range of premium sugarcane bagasse products.

Experience the difference with Sucane – where sustainability meets sophistication.

Our Certificates

Sugarcane's Eco-Friendly Evolution: From Harvest to Tableware

Sugarcane's journey towards eco-friendly Tableware & Food Packaging begins with careful harvest and processing into versatile flakes. These flakes are then refined into sustainable bagasse pulp, marking a pivotal step in its evolution. From there, skilled craftsmanship shapes the pulp into elegant, eco-conscious tableware, redefining dining with every use. Our products prioritize sustainability, being both biodegradable and recyclable. Join us in embracing Sugarcane's eco-friendly transformation, from field to tableware, and contribute positively to our planet with each meal."

Why SUCANE ?

Experience dining in a whole new way with a touch of elegant greenness. We start by transforming sugarcane into eco-friendly tableware Products, showing our dedication to a sustainable future. From how we make it in our factories to when it's on your table, we're all about being eco-conscious. Our options aren't just stylish, they're also easy on the environment because they're biodegradable and recyclable. Choose SUCANE for dining that's both stylish and good for the planet.
